

Value-based care quiz

Considering moving to value-based care? Take this 10-question quiz. Answer **yes** or **no** to each of the questions below.

- 1. Do we currently meet our performance metrics for value-based care?**
Are we actively tracking key performance indicators related to quality, patient outcomes, and cost efficiency? _____
- 2. Do we have a thorough understanding of the principles of value-based care?**
Have we adequately educated our staff about the core concepts of value-based care, including care coordination, patient engagement, and outcome measurement? _____
- 3. Do we possess the necessary technological infrastructure to support value-based care?**
Is our electronic health record (EHR) system capable of supporting the data collection, sharing, and analysis required for value-based care models? _____
- 4. Do we have a comprehensive understanding of our current patient population's health status?**
Have we conducted a comprehensive assessment of our patient demographics and their health needs? _____
- 5. Are we effectively engaging patients in their own care?**
Do we have effective strategies in place to promote patient engagement, education, and adherence to treatment plans? _____
- 6. Do we have adequate resources for care coordination?**
Do we have a dedicated team or resources to manage care transitions, follow-ups, and coordinated care among specialists and primary care providers? _____
- 7. Are we effectively managing chronic diseases in our patient population?**
Do we have effective protocols in place for managing chronic conditions that improve patient outcomes? _____
- 8. Do we have active partnerships or collaborations in place?**
Are we collaborating with other healthcare organizations, community resources, and providers to enhance care delivery and address social determinants of health? _____
- 9. Do we have a culture of continuous quality improvement?**
Are we using data to inform our strategies for enhancing care quality? _____
- 10. Are we prepared for the financial implications of transitioning to value-based care models?**
Have we assessed the potential financial risks and rewards of transitioning to value-based care models, and do we have a plan in place to manage cash flow and reimbursements during this transition? _____

Did you answer no to more than 3 questions? If so, it might be beneficial to consider finding a partner, such as Optum, to help with transitioning to a value-based care model.
